ATTEST:

ROBERT C. FLOYD,
Secretary.

REPORT.

PHILADELPHIA, 1884.

To the Board of Guardians of the Poor:

GENTLEMEN:—I have the honor to submit the report of the various departments under our care for the year ending December 31st, 1883. During the year each committee has effected marked improvement in the department under its control. Rigid economy has been enforced throughout the entire institution and has resulted in a large saving of expense to the city, while the inmates have had better lodging, diet, and treatment.

Very respectfully,

EDWARD F. HOFFMAN,

President of the Board of Guardians of the Poor.

REPORT OF THE SUPERINTENDENT
OF THE
BLOCKLEY ALMSHOUSE.

To the President and Members of the
Board of Guardians of the Poor.

GENTLEMEN:—I have the honor to present herewith for your consideration, the annual statement of the several departments of this institution for the year ending December 31st, 1883.

Very respectfully,
GEORGE H. SMITH,
Superintendent.

REPORT
OF THE
COMMITTEE ON ACCOUNTS.

PHILADELPHIA, January, 1884.

To the Board of Guardians of the Poor
of the City of Philadelphia.

GENTLEMEN :—The Committee on Finance respectfully
present the following as their Report for the twelve months
ending December 31st, 1883.

Very respectfully,

LOUIS WAGNER,
JOSEPH PAXSON,
JOHN HUGGARD,

Committee on Finance.

REPORT OF THE OVERSEER OF MANUFACTORY.

BLOCKLEY ALMSHOUSE, MANUFACTURING DEPARTMENT,
PHILADELPHIA, January 1, 1884.

To the President and Members of the
Board of Guardians of the Poor.

GENTLEMEN :

I herewith respectfully submit the following statement, showing value of goods manufactured, and work by the inmates of the institution employed in the manufacturing department, under the supervision of your Committee on Manufactures, Buildings and Grounds, during the year 1883.

Total value of productions, . . . \$42,792.40
Divided among the different departments
as follows :

Hospital Department,	. . .	\$6,719.93
Insane Department,	. . .	4,896.06
Men's Out-Wards,	. . .	7,408.50
Women's Out-Wards,	. . .	5,965.75
Childrens Asylum,	. . .	2,408.87
Goods delivered to store,	. . .	15,393.29
		<hr/> \$42,792.40

Respectfully,

JOHN B. SNYDER,

Overseer.

REPORT OF THE GARDENER.

To the President and Members of the
Board of Guardians of the Poor.

GENTLEMEN :

I herewith submit my annual statement of the products of the farm for the year ending December 31, 1883, distributed as follows :

Hospital Department, . . .	\$1,170.15
Insane Department, . . .	1,292.79
Children's Asylum, . . .	304.87
Men's Out-Wards, . . .	1,038.20
Women's Out-Wards, . . .	1,097.75
	<hr/>
	\$4,903.76
Stock on hand Jan. 1, 1883, . . .	2,525.43
	<hr/>
	\$2,378.33
Stock on hand Jan. 1, 1884, . . .	744.50
	<hr/>
Value of products for 1883, . . .	\$3,122.83

Very respectfully,

RUDOLPH SIMON,

Gardener.

REPORT OF THE OUT-DOOR AGENT.

PHILADELPHIA, January, 1884.

To the President and Members of the
Board of Guardians of the Poor.

GENTLEMEN:—The amount of moneys collected during the year, on account of support cases, was \$28,619.03.

I am, respectfully,

A. D. W. CALDWELL,

Out-door Agent.

REPORT OF THE VISITOR OF CHILDREN.

PHILADELPHIA, January, 1884.

To the President and Members of the
Board of Guardians of the Poor.

GENTLEMEN:—During the last year, thirty-nine children have been indentured from the Asylum and obtained homes with respectable families; twenty-nine of this number were placed in the city and ten in the country.

The sixteen children in the Pennsylvania Training School at Media, have been visited and found to be in all respects properly cared for; quarterly reports of their condition are made by Dr. Kerlin.

I am, respectfully,

ROBERT C. FLOYD,

Visitor.

REPORT OF THE INSANE DEPARTMENT
OF THE
PHILADELPHIA HOSPITAL.

COMMITTEE,

JOHN HUGGARD, R. C. McMURTRIE,
P. K. DALY, W. H. ZIEGLER, M.D.,
JOHN RUHL.

PHYSICIAN-IN-CHIEF,

DAVID D. RICHARDSON, M.D.

ASSISTANTS,

MALE DEPARTMENT,

C. P. HENRY, M.D.

FEMALE DEPARTMENT,

ALICE AVERY, M.D.

REPORT OF THE PHYSICIAN-IN-CHIEF OF THE INSANE
DEPARTMENT OF THE PHILADELPHIA HOSPITAL,
FOR THE YEAR 1883.

To the Superintendent of the Philadelphia Almshouse.

DEAR SIR:—The number of patients remaining in this Department January 1st, 1883, was six hundred and forty: viz., two hundred and eighty-four males and three hundred and fifty-six females.

There were admitted during the year, two hundred and twenty-seven; one hundred and four males and one hundred and twenty-three females.

The total number present was eight hundred and sixty-seven: viz., three hundred and eighty-eight males and four hundred and seventy-nine females.

Fifty were discharged as recovered: viz., twenty-one males and twenty-nine females. Eighty-seven were discharged as improved: viz., fifty males and thirty-seven females. Two were discharged unimproved and were removed to the nurseries.

Seventy-seven died: viz., thirty-one males and forty-six females.

The daily average present during 1883, was six hundred and thirty-five.

Of two hundred and twenty-seven admissions, one hundred and sixteen were Americans, and one hundred and eleven, foreigners; ninety-six were unmarried, eighty-six married, and fifty-five widowed.

One hundred and sixteen were reported temperate, eighty intemperate; the habits of thirty-one were not ascertained.

The largest number of males were laborers and the largest number of females were housewives and domestics.

One hundred and ten were Catholics; ninety-one, Protestants; three were Hebrews; the religion of twenty-three was not ascertained.

One patient had a High School education, twenty-three Common School; one hundred and fourteen could read and write; forty-three could read and one could spell; thirty-eight were uneducated, and of seven the degree of education was not ascertained.

Thirty-nine were admitted from the Philadelphia Almshouse, twenty-four from the Philadelphia Hospital, eleven from Moyamensing Prison, two from the House of Good Shepherd, one from Children's Asylum, one from University Hospital, one from Pennsylvania Hospital, two from the Episcopal Hospital, and one hundred and forty-six from other localities in Philadelphia.

The largest number was admitted in December and the smallest in February.

The ages of those admitted varied from ten to eighty-five years. Fifty-two were between fifty and eighty-five years.

One hundred and ninety-four were the first admission to this Department, thirty-one the second, one the fourth, and one the sixth.

One hundred and fifty were the first attack of Insanity, seventeen the second, and four the third. The number of attack of fifty-six was not ascertained.

The age at first attack varied from under ten to eighty-five years. Twenty-two were between fifty and eighty-five. The ages of seventy, at first attack, were not ascertained.

Seventy patients had been insane between two and thirty years; twenty-six between one and two years. The duration of Insanity of fifty-five was not ascertained.

Four were imbecile from birth.

The principal causes producing the Insanity of those admitted were ill-health, intemperance, and heridity; it is highly probable that many of those charged to ill-health were really due to intemperance as producing the ill-health which eventually culminated in Insanity. This is one of the exceedingly difficult points to reach in the history of the insane. Friends are loath to expose the shortcomings of their afflicted

ones, and the physician is often left groping for causes which they decline to give.

The enemy which men put "into their mouths to steal away their brains" is either the predisposing or exciting cause of many of the ills and "shocks that flesh is heir to."

Michael Cassio well said, "Every inordinate cup is un-blessed, and the ingredient is a devil." The evils of intemperance do not always end with the life of the individual, but are frequently reproduced in insane, idiotic, imbecile and epileptic children.

The table of complications shows that the "mind diseased" is not the only problem with which we have to contend in the treatment of those admitted; save seventy-six, all were palpably physically unsound.

The difficulty which meets us with formidable resistance is the effort to ascertain the family history of insanity—the so-called hereditary taint—this "skeleton in the closet" is guarded with the utmost care, truth being often sacrificed in its defence. Another difficulty not easily surmounted, is relative to the causes of death of the relations of the insane, always a majority being reported as having died of "old age."

The forms of insanity of those admitted were Melancholia, one hundred and fifteen; Dementia, forty-five; Mania, thirty-five; Imbecility, thirteen; Paresis, ten; Epilepsy, seven; Monomania, one, and one not insane.

You will perceive by comparing the report of 1882 with the present one, that the death rate has been greatly reduced. In 1882, for causes then assigned, it was 13.4 per cent. on the whole number under treatment; for 1883 it was 8.8 per cent. The class of cases sent to this Department from the Hospital and Almshouse contributes greatly to this result.

Eleven per cent. of the deaths were in individuals who became insane between the ages of sixty-five and eighty-five years.

Fourteen per cent. of those who died were insane between six and forty years, when admitted to this Hospital.

Of those who died, the cause of insanity was physical in forty-five, moral in twenty, physical and moral in seven, and in six the cause was not ascertained. Those classed under moral were all from intemperance; those classed under physical and moral were due to the combined effects of intemperance and ill-health. Twenty eight per cent. of those who died were between sixty and ninety years of age.

Fifteen deaths were due to a form of insanity known as Paresis, and which is believed to be caused by the conjoint effect of alcohol and venereal excesses; death is the inevitable issue.

Fourteen deaths were from Heart Disease, eleven from Consumption of the Lungs, eight from Hemorrhage into the Brain, four from Exhaustion from Epilepsy, three from Bright's Disease of the Kidneys, three from softening of the Brain, three from Double Pneumonia, and the remainder from various causes, as shown in the table of causes of death.

We begin the new year with six hundred and fifty-one patients: viz., two hundred and eighty-five males and three hundred and sixty-six females.

OBLIGATIONS.

We take pleasure in acknowledging our thanks to the following ladies and gentlemen for aiding us in making our household happy:

Mrs. Everest and friends, Drs. McLaughlin and Reed, Madam and Miss Goodman, Messrs. D. S. Bispham, Merton Pyne, John McNeill and the "Amateur Orchestra;" Messrs. Hudson and McIlvaine, Mr. Edward Barber and Miss Mary E. Clime, Misses Walsh, Jones and Burdsall; Messrs. James P. Butler and Harry G. Hovey, Dr. H. B. Rockwell, Mrs. Minnie E. Dent, Mrs. Fannie M. Williams and Miss H. T. Law.

To the Press we are indebted for the following papers, which are a source of evident satisfaction and profit to our many readers :

- Three copies of "The Evening Telegraph."
- Three copies of "The Evening Chronicle."
- One copy of "The Evening Star."
- One copy of "The Evening Call."
- One copy of "The Evening Bulletin."
- One copy of "The Ledger."
- One copy of "The Philadelphia Freie Press."
- Two copies of "The Sunday Republic."
- One copy of "The Sunday Mercury."
- One copy of "The Sunday Record."
- One copy of "The Sunday Press."
- One copy of "The Sunday Dispatch."
- One copy of "The Sunday Mirror."
- One copy of "The World."
- One copy of "The Sunday Transcript."
- One copy of "Taggart's Sunday Times."
- One copy of "The Sunday Item."
- One copy of "Philadelphia Volks Blatt."
- Six copies of "The Catholic Standard."
- One copy of "The Item."

Of the six hundred and fifty-one remaining, forty are probably curable. This probability will, of course, be influenced by hereditary complications.

The work, in and about the Insane Department, is done almost wholly by the patients. Six thousand eight hundred and twenty-six articles of clothing were made by them during the year, under the supervision of the seamstress and attendants.

Very respectfully submitted,

D. D. RICHARDSON,

Physician-in-Chief.

PHILADELPHIA HOSPITAL.

*Report of the White Men's Medical Ward, from January 1st
to December 31st, 1883.*
